with the United States. She has no

shipping on the seas, no trade or commerce

worth talking about, none of those external

interests which operate and have operated

so powerfully for many years past to keep

the wealthier nations of Europe from

engaging in warfare. She has nothing to

lose except honour, and from the Reuter

published this evening it would appear

that she is preparing for all eventualities

and intends to vindicate that honour if the

action of the United States in regard to

to-dry, contains what it claims lean accurate translation of the speech delivered by Count Okuma (Premier) at a recent meeting of the Oriental Association. The Countil reported to have said in reference to the recent war with China that. "it owed its origin entirely to His Majesty's benevolent wish to aid a weak and defenceless neighbour." . . "The relations between Japan and the treaty powers are bapplly very friendly, and there is no country scheming against us or attempting to injure our interests or sights." After stating that he would do his atmost to promote foreign trade, the dirthought there was very little danger of a suplure between any of the Great Powers because it would cripple their trade. He then reminded his hearers that diplomacy is not the the monopoly of any one country. There were always other nations to be taken into account, If, however, any of those countries should Injure Japan's prestige, rights, or interests he felt that he "need hardly affirm that the patriotism of the forty million Japanese would burst out like a volcanic eruption." In conclusion he advised the Asso ciation to study the diplomacy by which the I national interests may be premoted and the peace and balance of power in the Orient be tion of the whole world whose present condition is indeed pitiable. To rescue that nation from its sufferiogs is a labour which Japan, in deference to sentiments of justice, should undertake. Such undertakings could only be carried out by the united power of the nation." He therefore earniestly commended to the Oriental Association, which erjoys great influence, " that it should take upon itself to deliver from its distress that great but unfortunate nation in order to maintain the peace of the world, or, speaking in a more limited sense, Boxing Day (the 25th and 26th instant), except | the peace of the Far East." AN ARMED MEPCHANT CRUISER.

Through the courtesy of Capt. Tillett, Marine Superintendent of the Canadian Pacific Steamthip Co., a reporter of the Hongkong Telegraph was to-day afforded an opportunity of inspecting the Company's steamship Respiess of Japan. Leaving Pedder's Wharf in the trim little launch flying the familiar red and white checquered house flig, our representative was soon alongside the handsome white liner, and Mr. P. C.

Vincent (of the office staff) acted as guide. The saloon deck was first visited, and here was a magnificent promenade, wide and long and covered overhead, just the place for reading or gossip in fine weather, and offering abundant facility for the enjoyment of games peculiar to shipboard. In fact the deck was as wide as many streets, and its cleanliness was beyond dispute. For those of bookish tastes lukong by negligent navigation. The library which opens on the saloon deck is a large chamber, well lighted by ports and a away. He, too, heard the shouls from the planace handsomely painted skylight. In each corner are fuxurious seals upholstered in green flowered velvet, and the walls are panelled in flowered satio, which produces a very rich effect. The lower parts of the wall are in highly polished satin wood, and the walls and celling are figured in anistic designs in white and gold. The chief has his four-decker Christmas cake ready for the oven, and we noticed a boat's head, ready for stuffing, that would not be unfitted for Windsor Palace Itself. Such a store of good things too were shown in the way of mince-pies, buns, etc., that they would spoil the good intentions of the hest regulated of boarding schools. The cook houses were perfect models of cleanliness and reflect all credit on the chief. In this part the crew have their quarters, and there are separate rooms for the netty officers. On the focsie head two white painted from structures are seen covered with a wooden frame. They look innocent enough to the casual examiner. but they have serious purposes. On these are to be mounted when need arises quickfiring breech-loading guns that will coable the Empress to uphold the honour of the blue ensign she so proudly files on her jack staff. Two more of these platforms are aft and have only recently been made ready for mounting of guns by the Naval Dockyard workmen. There are also fittings for broadside guns, but they are not so far advanced as the others, the completed platforms not being put in position.

STRAITS OPINION.

Singapore, December 11th.

The proceedings in the Hongkong Legislative Council are lively reading just at present. Mr. T. H. Whichead, who has grit and backbone more amply developed_than in the case of probably any unofficial member of a Legislative body on this side of Sucz, has been putting his foot down handsomely on what are distinct abuses in procedure. He attacks the generic the specific. The instance in point is the matter of the Gap Rock Light dues. These dues were specially imposed for the stated purpose of defraying the one and a half cent per ton of shipping. The then Governor in 1880 d:clared that these dues would naturally cease when the charge was paid off. By a question in Council Mr. Whitehead brought out the fact that the expenditure to be defrayed on this herd amounted to \$315.035. Gap Pock shipping dues yielded \$358,521. leaving Government a bilance of \$42,586 in hand. Though the Gap Ruck Light is now shollshed, and the existing charge of one cont a

2.-In your despaich you deal with the difficult question of the Sanitary Board to which attention had been called in the report of the Retrenchment Committee. You state that you have again consulted the gentlemen who constituted the Retrenchment Committee as well as Mr. McConachie and Mr. Belilios and the members of your Executive Council, and that there is practically an unanimous opinion that the Government should be held directly responsible for the sanitation of the colony. Your own view is to the same effect, and you recommend that "the Sanitary Board as at present constituted be abolished and that the Head of the Medical Department of this colony, Medical Officer, be made responsible not only for the work of that department but also for the sanitary work of the colony other than that of an engineering nature, "which should be placed under the Director of Public Works."

3.-I am not prepared to controvert the opinion which has been thus given after long attention to the subject and consultation with representative residents in the colony. Sanitation is so all important in Hongkong that it seems only right that it should be under the direct control of the Colonial Government and that responsibility in the matter should not be divided; but I consider it to be desirable that. before the Sanitary Board is definitely abolished. to enquire into the Medical Establishment of there should be some resolution or expression of opinion to that effect on the part of the Ligis-2.-As the reorganization of the Medical lative Council, and I would sak you to invite them to favour me with a formal pronouncement of their views as soon as may be convenient.

Hongkong, 30th June, 1896. Sir.—I regret that I have once more to refer to you the question of the constitution of the Sanitary Board.

2.—From my previous despatches on this subject noted in the margin* you will have gathered that I am strongly in favour of undivided responsibility in sanitary matters. With this object in view I recommended, in the first instance, that the Sanitary Board as at present constituted should be abolished and that the control of sanitary matters should be piaced entirely under the control of Government. Afterwatch however, I informed you in my despatch No. 337 of 2nd December, 1895, that I was willing, in deference to the views of the majority of the unofficial members of the Legislative Council, to accept a compromise, according to which the Board would be constituted of three official and two profficial membirs, though I was not satisfied that undivided responsibility would be secured under such an arrangement. The adoption of the proposed compromise having been sanctioned by you, an Ordinance embodying it was introduced into the Legislative Council. Before, however, it was read a first time it became evident that it would not prove acceptable to a portion of the British residents of this colony. In order to ascertain what might be the views of the British community. I suggested that a plabiscite should be taken. Arrangements were accordingly made, and at pichiscite of the British community, exclusive of members of the Imperial and Civil Services, was held, the question submitted to the voters being whether the Sanita y Board should consist of a majority of officials or of to-day. unofficials. The result of the plebiscite was that 33t voted for an unofficial majority and 3t for an official majority. Among the former only three or four Chinese voted and among the

3.—From this plobiscitum it appears that 331

should be controlled by unofficial members. 4.-In view of my previously expressed opinion on the importance of undivided responsibility in sanitary matters, it is hardly necessary for me to state that I am not in favour of a Board the responsibility of which will divided and which will exercise its functions independently of Government control. Judging from the working of the present Board, which consists of an official and unofficial element, the latter of which preponderated. I considered that a mixed constitution, such as is now provided for, does not work well in peactice and leads to constant friction. In fact, this seems to be not infrequently the result of attempts to graft on a Crown Colony constitution popular institutions which do not appear suited to work smoothly or

successfully under such conditions. 5.—After carefully considering the question of the constitution of the Sanitary Board, I am of orinion that in order to secure undivided responsibility the sanitary affairs of the colony should either be placed directly under Government control or should be entrusted to a Board composed entirely of unofficials.

6.—In view of the peculiar circumstances of Hongkong and of the fact that the population is chiefly made up of Chinese, who will be more effectively dealt with by Government than by a popularly constituted Board, I am in favour of sanitary affairs being, placed directly under Stepfeled Government control and managed entirely by a M. Bacouchelm ... Government department responsible to the Kiangoak Governor,

7.—The alternative—a Board composed entirely of unofficials—would not, I fear, work well in this colony, which, as Lord Ripon has pointed out, has become a Chinese colony under the British flag. Out of a population of 210,000 the Chinese amount to about 242,000, and it is with sanitation among the Chinese that a Board, whatever its constitution may be, must be chiefly concerned. Further, it would be extremely difficult to draw the line between matters which should come under the Government and the Sanitary Board, and this would most certainly lead to friction and misunderstanding. At the same time, it is easy to understand the desire of those who, having been secustomed to popular institutions in Great Britain, wish to extend similar institutions to

such neusual and peculiar conditions. 8.—After mature consideration of this difficult destion. I am in favour of the Sanitary Board being placed directly under Government control in the manner proposed in my despatch No. 163 of the 18th May, 1805, but I have thought it right to place you in possession of the views held by others as well as my own, so that you may be in a position to consider both sides of the question before conveying to me your final decision in the matter. I have the honour to be, sir, your most obedient, humbie servant.

(Telegram.) THE SECRETARY OF STATE TO THE GOVERNOR. London, 6th November, 1506.

Referring to your telegram of 27th October, despatch fellowing by mail. SECRETARY OF STATE FOR COLONIES. Governor, Hongkong,

THE SICRETARY OF STATE TO THE GOVERNOR. Dewning Street.

6th Nevember, 1806 Sir.—I have the honour to acknowledge the receipt of your despatch No. 150 of the 10th of Tune last and of your telegram of the 27th ultimo on the subject of the Sanitary Board,

2.-I understand the Board, as at present consiltuted, to be working well, and I consider that the question of its future constitution may well stand over to be dealt with, if necessary, hereafter by your successor, who will be in a position to approach it de novo with the advantage of the information which has already been gained on the subject.

3.-I have come to this conclusion in part because I think that, on reflection, you must concur with me that in taking a plebiscite of the British community exclusive of the members of the Government services the situation has been much complicated. I have every reason to assume that the British merchants and residents in Hongkong have the same good sense and public spirit as their countrymen elsewhere, but it is impossible that Hongkong should be other than a Crown Colony; It is inconsistent with Crown Colony government to seek the suidance of a piebiscite; and in no community whatever, wheter Crown Colony or not, can a satisfactory solution of a question, in which the whole body of the ratepayers and many outside that body are interested, be induced from an expression of the opinions of one section alone.

4.—In the present instance, the plebiscite having been held, you have found yourself constrained to advise a course opposed to that for which the very large majority of the votes were

5.-Under existing circumstances, then, I have decided to defer giving any final decision. In the course of a year or so it will be more evident what, if any, is the real want, and how it may best be met. - I have the honour to be, sir, your most obedient, humble servants.
